*"The discovery of a wine is of greater moment than the discovery of a constellation. The universe is too full of stars."*

- Benjamin Franklin

**W**e hope you enjoy the wines on our wine list. Wines are supplied by Vintage Roots who were named as Green Retailer of the Year in 2015. They source great tasting organic wines from around the world (many with significantly less sulphur than conventional wines) and the carbon impact of importing and delivering the wine is offset using a certified scheme. Great wines that don't cost the earth. Unless otherwise indicated all our wines are vegan.

LS : Low sulphur added

NS : No sulphur added

**B**eers sold at the Geese and Fountain in bottles or cans are sourced from some of the most innovative and creative breweries – around the UK and from overseas. We try to find beers that stand out – excellent examples of the variety of beer styles available. We use a number of wholesalers and importers, but where possible we go direct to the brewery. If there's a particular beer you'd like us to stock, please ask.

GF: Gluten free beer

**S**orry, but we don't stock alcopops. We do have a wide range of soft drinks, fruit juices and mixers, selected for quality (Fever Tree tonics, including their Elderflower and Mediterranean varieties, Belvoir Fruit Farms pressés, and Fentimans traditional fizzy drinks, for instance). Our range of spirits offers quality and distinctive tastes, a combination of local choices and national and internationally sourced speciality spirits. Many of our offerings are the result of organic production methods, offering purity and quality without compromising value.

*"Beer makes you feel the way you ought to feel without beer."*

- Henry Lawson
